Mr. Wilett gave a brief biography of Mr. Rogeevelt's life, beginning with his experiences as a cowboy down to the present time, and accused him in his carly manhood of having ind preposterous notions, of having "a warrior aione in Cuba." of having won the governorelip of New York by a mere finke "when the faise halo of San Juan Hill was above his head, the beneficiary of assassination, and last and crowning piece of luck, the nominee for President, when all the aggressive elements of the opposition wanted to see their own candidate defeated—the mammoth jocularity has got a laugh with every appearance, the gargoyle has been funny from the hour it left its native quarry."

Continuing, Mr. Willett said:

An Eccentric Exception.

And, Mr. Chairman, should the gentlemen who view this curious figure with reigned admiration ask me how any son of Adam can be at the same time a hay-tedder, a jecularity and a gargoyle, I can only answer that the particular hero is an eccentric exception to all rutes, a solecism sulgeneris, a mixed metaphor vivant, an impossibility, a conset that roves at will, regardless of the limitations of crusred law that apply to earth and hoon, to stars and planets.

"He boasts of Irish blood, but no historic trishman would have treated and ally as he treated Mr. Harriman.

"He exults in a strain of the old luguenot, but the French gentleman doesn't fly into a passion and lash the lorse of a timid young girl, whose only offense is inadvertently passing the royal party in a public highway. Even Louis XIV, was not that sort of a tyrant,

"He is proud to insist that the family whose name he bears comes from olland, but his ready surrender to politicians of his own party makes clear chough that fat burghers, whout up their shutters at the first beat the ward from must have been his cognitive. He beats the Dutch, however, as even his severest critics must burges.

Quotes President's Books.

He quoted from President Roosevelt's books, in which the President is alleged to have attacked Washington, Jefferson, Monroe, Jackson, Tyter Pictore and others, and said that the President had "loieration only for the Adamses, who stood for Federalist aristocracy, and admiration for Alexander Hamilton, the defeated champion of a limited monarchy."

"Of course," said Mr. Willett, "these condemnations roar as gently as any sucking dove when compared with his denunciation of John Paul Jones as a "pirate"; of Napoleon the Great as "utterly unscriptious"; of New England's ideolized Wendell Phillips as always "either mischlevous or ridiculous and sumil both" of Thomas Paine the first champion of American Hierty as taristocracy and American Hierty as "Title and seed the first champion of American Hierty as a duelists." # 3.3.5. OLD SORES

Before any sore can heal, the cause which produces it must be removed. As long as the blood, from which our systems receive their necessary nour-ishment and strength, remains impure and contaminated with disease germs, any old sore on the body will remain open, and resist every effort made to heal it. The nerves and tissues of the flesh around the places are continuheal it. The nerves and ussues of the nesh around the places are continually fed with unhealthy matter and nature is simply disposing of the poison by draining it from the system through the sore. The only cure for an old fore is a thorough cleansing of the blood, entirely ridding the system of the cause. S. S. heals old sores by removing every particle of impurity from the circulation. It goes down to the very bottom of the trouble and so completely cleanses the circulation that there is no longer any impurity to drain through the sore, but the place is once more nourished with rich, health-ful blood. S. S. S. heals the sore from the bottom, the place of the little int blood. S. S. heals the sore from the bottom, the place soon fills in with healthy, firm flesh, the tenderness leaves, all discharge ceases, the skin regains its natural color and when S. S. S. has thoroughly cleansed and purified the blood the place is permanently healed. Book on Sores and bleers and any medical advice free to all who write.

You can spurn Him, profane Him, reject Him, and He will forgive you but if you say aught against the Holy Ghost—nover! never! never!

The Evidence of Sin.
"I close with this. You say to me:

"What is the evidence of the sin?
It is this: Your heart is growing indifferent when the infinister preaches.
God's Word has lost its grip on you.
When Mr. Naftzger sings there is nothing in it that stirs you. Your mother puts her arms about your neck and asks you to come to Jesus. You shove the arms away. She writes you a tear-stained letter, asking you to believe, and you smile in scorn. Your wife says she will die for you before the setting of to-morrow's sun, but she does not want to separate from you at the cross, and you scoff at her.
